

SOCIETY FOR SCIENTIFIC EXPLORATION

Program for the Euro SSE Meeting, August 17 – 19, 2007, Røros, Norway

Issue: 7/26/07

Friday 17. August

- 09:00-09:10 Welcome
- 09:10-09:30 Paul Devereux: A historical case of Earth Lights
09:35-09:55 Auguste Meessen: From UFO Properties to UFO Propulsion
10:00-10:20 Dave Akers: The Toppenish Field Study: A Technical Review and Update
- 10:20-10:40 Coffee break
- 10:40-11:00 Erling Strand: Project Hessdalen, the history and data
11:05-11:30 Bjørn-Gitle Hauge: Optical spectrum analysis of the Hessdalen phenomenon
11:35-12:00 Stein Johansen: Judging and Explaining Extraordinary Phenomena and the Global Science Ecology from Superior Natural Science and a Syntropic Anthropology of Science
- 12:00-13:30 Lunch break
- 13:30-13:50 Massimo Silverstri, Giorgio Abraini, Renzo Cabassi and Nico Conti, presented by Stelio Montebugnoli: Smart Optical Sensors Observatory
13:55-14:15 Vicente-Juan Ballester Olmos and Ole Jonny Brenne: Norway in UFO Photograph, the first catalogue
- 14:15-14:30 Coffee break
- 14:30-14:50 Antonella Vannini: Advanced Waves, Retrocausality and Consciousness
14:55-15:15 Ulisse Di Corpo: The conflict between entropy and syntropy: the vital needs model
15:20-15:40 Patricio Parente: Experience and legitimacy of UFO accounts in Argentina: Popular and scientific narratives from an anthropo-epistemic point of view
- 16:00-20:00 Tour to Hessdalen
- 21:00 Dinner

Saturday 18. August

- 09:00-09:10 Announcements
- 09:10-09:30 Antonio Giuditta: Mechanism of biological evolution
09:35-09:55 Stefano Siccardi: Instrumental Investigation of OBE (Out of Body Experiences)
10:00-10:20 Michal Teplan: EEG analysis for application of mind machines, relaxation, and meditation. Some thoughts on anomalous research

- 10:20-10:40 Coffee break
- 10:40-11:25 Paul Devereux: Mindscapes
- 11:30-12:00 Emilios Bouratinos: Truth, reality and objectification
- 12:00-13:30 Lunch break
- 13:30-13:50 Wolfgang Helfrich: s the psychokinetic effect as found with binary random number generators suitable to account for mind-brain interaction?
- 13:55-14:25 Bob Jahn and Brenda Dunne: PEAR: Past, Present, and Projected
- 14:30-14:55 Richard A. Blasband: Experimental Evidence for the Existence of an “Energetic” Component in Healing
- 14:55-15:15 Coffee break
- 15:15-15:45 Erlendur Haraldsson: Cases of the Reincarnation Type
- 15:50-16:20 Jens Tellefsen: Dowsing along the PSI Track
- 16:25-16:50 Yolene Thomas: The physical nature of the biological signal, a puzzling phenomenon:the critical role of Jacques Benveniste
- 16:50-17:10 Poster: Marsha Adams: Presentation of the International Earthlight Alliance IEA
- 17:15 Movie
- 20:00 The banquet

Sunday 19: August

- 09:00-09:10 Announcements
- 09:10-10:10 Matti Pitkänen: TGD Inspired Theory of Consciousness
- 10:15-10:45 Roger Taylor: Ormus: a possible new state of Matter, with Promise for Agriculture, Health and the Environment
- 10:45-11:05 Coffee break
- 11:05-11:35 Alexander V. Trofimov: Results and perspectives of studies of solar-biospheric connections in the periods of solar eclipse
- 11:40-12:00 Dimitri Olenice: A confirmation of the Allais and Jeverdan-Rusu-Antonescu effects during the solar eclipse from 22 September 2006 , and the quantization of behavior of pendulum
- End of the 7th Euro SSE Meeting
- 12:00-13:30 Lunch.
